CIMAGE K500 Optima

When card security matters, the CIMAGE K500 Optima give the performance you need, with ease.

- ✓ The K500 Optima printer and laminator print durable full-colour/monochrome images on ISO cards providing personal IDs that are virtually tamper-proof. It incorporates a parallel processing system, enabling one card to be printed and another laminated simultaneously. With the new all metal cover and a 100 card capacity hopper, the K500 Optima has become more rugged and heavy duty.

Convenience and ease of use come in the form of a user friendly LCD display indicating printer status, a transparent cover for monitoring the production and easily changeable print head assembly and ribbons.
